President of the Republic of Azerbaijan Ilham Aliyev attends the opening of the new bridge nearby Masazır.

The bridge is located on Baku-Guba-Russia border main road

President Ilham Aliyev has attended the opening of the bridge constructed on Baku-Guba-Russia border main road nearby Masazır.

President has been informed that high pressure resistant beams were used in the construction of the bridge having a ground clearance of 9 meters. In the course of the construction, 47.000 m³ earth works were performed and 4773 m³ concrete and 12. 540 tons asphalt was used.

The owner of the project, Ministry of Transportation, was financed by Czech Export Bank. Construction works were executed by Azerinsaatservis LLC. Linking the motorways from Khirdalan and Masazır with the main road, the new bridge is of high importance in terms of ensuring the comfort and safety for transporters.

The 6-lane bridge is 84 meters long, 24,5 meters wide. Each of the lanes have a width of 3,75 meters. /AzerTAc/
