Azerinsaatservis LLC. carries out the construction of the Baku-Tbilisi-Kars Railway Project's Georgian section

*Azerinsaatservis LLC.
Baku, Azerbaijan
2009/07/16*

Within the scope of the Baku-Tbilisi-Kars (BTK) Railway Project, Azerinsaatservis LLC. carries out the construction of Ahalkalaki-Kartsaki-Turkey border railway section running through the borders of Georgia.

The BTK Railway Project includes the construction of a direct railway line between Turkey and the Republic of Georgia and the linkage of the said line with the present railway line within the borders of the Republic of Azerbaijan. As soon as the BTK becomes an important transport system between Europe and Asia, the Republic of Azerbaijan, Georgia and Turkey shall turn into a significant transit intersection. After the railway in question is put into service, 5 million tons of freight shall be transported at the preliminary stage, meaning a permanent income for those three countries as transit fees.

In the mean time, the BTK Project is of high importance for Azerbaijan politically, economically and strategically. By means of the said railway, Azerbaijan shall have a direct access to both international transportation corridors and to Turkey.

Project Execution

Azerinsaatservis LLC., which has currently been constructing the Georgian section of the BTK Railway, completed the laying of the connection water pipes within the framework of the project. Soil beds and water holes along the railway line to be constructed are still being prepared. Regarding the restructuring of Ahalkalaki-Kartsaki-Turkey border railway section of the BTK Railway, 12% of the works have been completed.

The total length of Ahalkalaki-Kartsaki-Turkey border railway to be constructed within the framework of the project is 25,65 kilometers. In addition, it is predicted that 1 station, 6 bridges and 5 access roads will be constructed within the framework of the project.

It is planned that the construction works within the scope of the project ordered by the Georgian Ministry of Economic Development and financed by the Government of Azerbaijan will be completed by the end of 2011.

Having been founded in 2003, Azerinsaatservis LLC. has turned into one of the leading companies in the construction of roads and railways in Azerbaijan and the Caucasus. The Company, which offers high-quality service, renders all kinds of services from A to Z in its primary field of business, namely in the construction of roads and railways, with its own possibilities.
