Masazir access road constructed by Azerinsaatservis LLC. is put into service

Azerinsaatservis LLC

Baku, Azerbaijan

2009/07/23

Masazir access road constructed by Azerinsaatservis LLC. within the scope of the "Project for the Restructuring of the Section Between the 6th and 16th km of Baku-Guba-Russian Federation State Border Motorway" has been put into service.

"Project for the Restructuring of the Section Between the 6th and 16th km of Baku-Guba-Russian Federation State Border Motorway" includes the rehabilitation of 3 roads and the construction of a new access road in Masazir.

Masazir access road was constructed for the purpose of linking the motorways from Hirdalan and Masazir with Baku-Guba-Russian Federation state border motorway. Putting such an access road into use in that region is of high importance in terms of preventing the congestion occurring and thus ensuring easy traffic flow in the region in question as well.

Having been constructed on the 12th km. of Baku-Guba-Russian Federation state border motorway, Masazir access road is 84 m long (99 m together with the junction signs in both lanes) and 24,5 m wide. The bridge comprises of 6 lanes in total; 3 lanes for each direction. A safety curb of 1,5 m width was built along both sides of the bridge for the movement of pedestrians. Each of the lanes has a width of 3,75 meters. High pressure resistant beams were used in the construction of the bridge having a ground clearance of 9 meters. In the course of the construction of the access road, 47.000 m³ of earth work was performed and 4773 m³ concrete and 12. 540 tons asphalt was used. The access road was paved with 27 cm thick asphalt in total; 12 cm for the first layer, 10 cm for the second layer and 5 cm for the wear layer.

Having been run by Azerinsaatservis LLC., the "Project for the Restructuring of the Section Between the 6th and 16th km of Baku-Guba-Russian Federation State Border Motorway" was financed by Czech Export Bank. The project was ordered by the Republic of Azerbaijan's Ministry of Transportation. Currently, approximately 80% of the works predicted within the framework of the project is complete. It is envisaged that the project, which was put into execution on December 2006, shall be delivered by Azerinsaatservis LLC. in September as completely ready for use.

Having been founded in 2003, Azerinsaatservis LLC. has turned into one of the leading companies in the construction of roads and railways in Azerbaijan and the Caucasus. The Company, which offers high-quality service, renders all kinds of services from A to Z in its primary field of business, namely in the construction of roads and railways, with its own possibilities.
