Azerinsaatservis LLC. rapidly keeps on constructing Baku Ring Road

Azerinsaatservis LLC

Baku, Azerbaijan

2009/09/10

Being a local company, Azerinsaatservis LLC. rapidly keeps on performing the construction works within the scope of the “Project for Baku Ring Road Construction”.

Construction works of the said project linking the motorways at border of Baku-Russia, the border of Baku-Georgia and the border of Baku-Iran have been executed since October 2006. The main road constructed within the scope of the project is 21,5 km long and the ancillary (side) roads are 11,65 km long together with Bileceri Downgrade. The width of the soil bed of the 6-lane (3 going and 3 coming) road is 33,5 meters and the width of the main road is 22,5 meters. Each of the lanes has a width of 3,75 meters. In total, asphalt coating of the road will be 19-27 cm thick.

It is envisaged that, within the framework of the project, 6 bridges, 1 underpass, 1 subway and 4 bus stops will be constructed. Up to now, 86% of the bridges and 98% of the underpasses and subways have been constructed. 78% of the earthworks, 42% of the asphalt works, 92% of the drainage pipes laying works and 94% of the communication lines transportation works have been completed.

Construction of the 22.359 m² retaining wall intended for preventing any landslide and crack to be detected in slopes during the construction of the road has been completed by 17%. It should be noted that the total length of the wall in question will be 640 m.

More than 400 workers and approximately 300 technical tools and equipment are used for the construction works by Azerinsaatservis LLC., which rapidly keeps on performing the construction works.

Executed by Azerinsaatservis LLC. upon the order of the Republic of Azerbaijan’s Ministry of Transportation, this project is financed by the Arabic Economic Development Kuwait Foundation, Abu-Dabi Foundation and the Government of Azerbaijan.

In short, Baku Ring Road, which has been completed by 63%, is predicted to be delivered as completely ready for being put into service on August 2010.

Having been founded in 2003, Azerinsaatservis LLC. has turned into one of the leading companies in the construction of roads and railways in Azerbaijan and the Caucasus. The Company, which offers high-quality service, renders all kinds of services from A to Z in its primary field of business, namely in the construction of roads and railways, with its own possibilities.
