## **Azerinsaatservis LLC continues speedily the construction of Baku Bypass Road.**

*Azerinsaatservis LLC*

*Baku, Azerbaijan*

*2010/05/11*

A local company - Azerinsaatservis LLC speedily continues the construction works on the project of "Construction of Baku Bypass Road".

The construction works on the project has been continuing from October 2006. The project will join the next highways: Baku-Russian State Border Highway, Baku-Georgian State Border Highway and Baku-Iran State Border Highway. The length of the main road being constructed in the frame of the project is 21, 5 km and the length of the secondary roads together with the Bilajari Descent is 11, 65 km.

In most parts the width of the road bed consisting of 6 lanes (3 going-away and 3 coming) is 33, 5 meters and the width of the traffic way of the main road is 22, 5 meters. The width of each lane is 3, 75 meters. Generally, according to the project the thickness of asphalt cover of this road will be 19-27 sm.

In the frame of the project, the construction of six bridges, one underpass for cars, one underpass for pedestrians and four bus stations are planned. The construction of bridges is complete for 94 % and underpasses for 98 %. According to the project, planned volume of earthworks have been completed for 92 %, asphalt works for 42 % and installation of drainage lines for 92 %. The transfer works of communication lines has been entirely completed.

With the purpose of prevention of detected cracks and landslides during the construction of the highway, planned construction of sustaining walls with the length of 640 meters is complete for 44%.

About 400 employees and 150 pieces of equipment are attracted to the construction works by Azerinsaatservis LLC, the company which continues the construction works with high speed.

The project executed by Azerinsaatservis LLC and The Customer of it being The Ministry of Transport of Azerbaijan Republic is financed by Kuwait Fund for Arab Economic Development, Abu-Dabi Fund and The Government of Azerbaijan Republic.

Baku Bypass Road is planned to be put into exploitation in August of 2010 and for the moment the road is totally completed for 71 %.

*Having been founded in 2003, Azerinsaatservis LLC. has turned into one of the leading companies in the construction of roads and railways in Azerbaijan and the Caucasus. The Company, which offers high-quality service, renders all kinds of services from A to Z in its primary field of business, namely in the construction of roads and railways, with its own possibilities.*
