## **Railway sleeper production plant of Azerinsaatservis LLC. is put into operation**

*Azerinsaatservis LLC.  
Baku, Azerbaijan  
2006/05/20*

Completed in 2005, the sleeper production plant commenced production in mid-May of 2006. The facility is the first in the Caucasus and the only one in the Caspian Sea Region meeting modern standards.

Located in Elet settlement of Karadagh district, the sleeper production plant has a total area of 62 240 m<sup>2</sup> and a production area of 2 904 m<sup>2</sup>. The production plant, which is worth US\$ 4 820 000 in total, is completely equipped with machinery imported from Walter-Beton GmbH. in Germany. The production plant employs approximately 100 people and bears a production capacity of 240 000 sleepers/year which translates into 75-80 km new railway construction per year. In the production plant, production process is carried out in accordance with Vaslov system, the most widely used method employed in developed countries. What this system basically promotes is the usage of domestic raw materials in production. Only a special elasticity material is imported from Italy.

Upon completion of production-installation works, production samples were tested and approved by prominent laboratories of Europe.

*Having been founded in 2003, Azerinsaatservis LLC. has turned into one of the leading companies in the construction of roads and railways in Azerbaijan and the Caucasus. The Company, which offers high-quality service, renders all kinds of services from A to Z in its primary field of business, namely in the construction of roads and railways, with its own possibilities.*
